15th January 2026

Dear Year 3 Parent/Carers,

Science Visitors – Tuesday 10th February 2026

STEM Innovation will be running STEM (Science, Technology, Engineering and Mathematics) workshops across the academic year and throughout our school. Year 3 will have individual class sessions **during the school day** that will take place on Tuesday 10th February 2026. It will focus on their science topic of 'Electricity'. These exciting and hands-on workshops will inspire your children and provide them with access to innovative technology whilst enhancing their science learning.

The cost of the STEM workshop is £3.00 per child for which we invite you to make a voluntary contribution via MCAS. As a school, we would not be able to cover the cost of this activity unless all parents, who are able to contribute, do so. We will always be ready to help in cases of genuine financial difficulty – please do speak in confidence with our School Finance Assistant.

STEM Innovation currently run a successful and popular club at our school. If you would like to find out more about who STEM Innovation are, please visit their website:

www.steminnovation.co.uk

Yours sincerely,

Miss Mackinnon
Year 4 Teacher
Science Coordinator
