

Email sent to Y6 Parents on Thurs 10th July from WSCC re. Road safety when starting Secondary School

Dear Year 6 Parents/Carers,

West Sussex has asked us to share with you as parents a resource you may find useful as your child(ren) transfer to Secondary School in September.

Attached is a copy of a resource (called 'Safe Adventures') designed by '**THINK!**', which is a Road Safety arm of the **DfT**. THINK! provide online Road Safety resources related to schools and have been carrying out national campaigns for over 50 years.

This resource is primarily aimed towards parents, to encourage them to speak with your children about their impending journey to school on their own (or with friends), how to plan the best route and keep themselves as safe as possible in the process. The resource is a great way for parents to engage with their child(ren) and support them with this significant transition and discuss any worries or concerns.

Kind regards,
School Office
